

Oral Health Criteria

To complete the Oral Health “focus area” this year you must complete two of the following criteria.

1. Distribute a newsletter about oral health.
2. Do a fluoride rinse program (for non-fluoridated areas).
3. Include oral health as a topic at an assembly.
4. Distribute an oral health survey to parents.
5. Complete another project, which the UDOH Oral Health Program has approved.

When your school chooses to focus on oral health for this year, drop a line! Let the Oral Health Program know. They're available to help you in any way you need. Contact:
